PROFESSIONAL SUMMARY

Learner with hands-on experience in **product development, AI-powered applications, third-party integrations, and backend engineering**. Strong interest in **fintech, investing, and 0-to-1 product building**, with a bias toward ownership, research, and execution.

EDUCATION

Year	Degree/Exam	Institute	CGPA/Marks
2023-2027	Bachelor of Technology (Computer Science)	Newton School of Technology, Rishihood University	7.8/10.0

INTERNSHIPS

Software Engineer Intern February 2025 - May 2026
Von by Go Rattle *Bengaluru*

- Contributed to an **AI-powered CRM product**, taking core product requirements through backend implementation and testing in an Nx microservices architecture.
- Built and shipped **user management, auth API, and CRM APIs**, supporting core customer workflows.
- Worked on **Salesforce integration** and **data synchronization**, resolving third-party issues for **reliable data flows**.
- Used **Signoz and Metabase** for observability and product/system monitoring to identify issues and improve reliability.
- **Tech:** NestJS, PostgreSQL, MongoDB, Docker, Signoz, Metabase

SDE Intern January 2025 - February 2026
Rocketium *Bengaluru*

- Built a **Photoshop plugin to automate creative workflows**, improving efficiency for design teams.
- Contributed to **Workfront integration via GoCobalt**, enabling streamlined project data synchronization.
- Worked across **product requirements, third-party integrations, and implementation** with JavaScript and React.

PROJECTS

Slate (AI Meeting Copilot) (Github) September 2026

- Helped professionals prepare for meetings and capture key decisions using **calendar context, AI transcription, and offline notes**.
- Focused on **privacy and reliability** with consent-based recording, verified meeting data, and automatic audio deletion.

Ornava (Github) (Demo) May 2026

- Simplified jewelry catalog creation for **Indian jewelers** through a no-prompt workflow from raw photo to AI-generated, shareable product image.
- Structured the experience around **guided presets, quality feedback, credits, batch generation, and WhatsApp buyer discovery**.

Aurum (Github) (Demo) April 2026

- Brought **billing, inventory, credit, advances, and cash management** together for Indian jewelry retailers.
- Added bank reconciliation, GST reporting, staff permissions, and **WhatsApp invoice sharing** to reduce manual work.

SKILLS

- **Computer Language:** JavaScript, Python, Java, SQL
- **Soft Skill:** Presentation Skills, Public speaking, Responsibility, Communication Skills
- **Databases & Data Tools:** MySQL, MongoDB, PostgreSQL

EXTRA-CURRICULAR ACTIVITIES

- **Arthakram Club**, involved in building the club & participating in product & consulting initiatives.
- Selected for the **HPAIR Virtual Summit** on global connectivity and bridge-building.
- Led student events including a **fireside chat with Ankur Warikoo** and live pitching sessions.
- Completed a **100 km walk**, demonstrating discipline and perseverance.
